Outstanding Plan
Outstanding Plan

This award is for a plan that advances the science and art of planning.
Outstanding Plan

“PLANOKC
THE COMPREHENSIVE PLAN FOR OKLAHOMA CITY”
Outstanding Plan

SCENARIO A (Park Tends Continued)

The scenario assumes that development patterns over the next 20 years will continue. The city will continue to be served by a functional street, with more housing and commercial space. Workplaces would be located relatively far from homes, making travel times longer than they are now. More commercial development would result, leading to increased traffic and congestion.

SCENARIO B (Central Market District)

This scenario maintains the city's high density and low-percentage of residential development. The central business district would be the primary focus, with a mix of commercial and residential uses. Mixed-use development would be encouraged, with an emphasis on walkability and retail.

SCENARIO C (Downtown and Midtown)

This scenario emphasizes walkability and high-density development, with a mix of residential and commercial uses. The downtown area would be the primary focus, with mixed-use development encouraged. Mixed-use development would be encouraged, with an emphasis on walkability and retail.
